

Ideation Phase

Empathize & Discover

Date	18-06-2026
Project Name	HouseRentals
Maximum Marks	4 Marks

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to help teams better understand their users.

Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.

Example:

Example: House Rental Application

Persona: A working professional looking to rent a home through HouseHunt — wants a verified, transparent, and hassle-free way to find a property close to work, within budget, and with a trustworthy landlord.
