

Project Design Phase Problem – Solution Fit Template

Date	18-06-2026
Project Name	HouseHunt
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- **Understand the existing situation in order to improve it for your target group.**

Example: HouseHunt – House Rental Application

Define CS, fit into CC	1. CUSTOMER SEGMENT(S) [CS]	6. CUSTOMER CONSTRAINTS [CC]	5. AVAILABLE SOLUTIONS [AS]	Explore AS, differentiate
	• Renters / tenants looking for homes, apartments, or PG accommodation (students, working professionals, families relocating) • Property owners and landlords who want to list and rent out their properties • Property sellers and home buyers entering the real estate market	• Limited budget for rent, deposits, and brokerage fees • Limited time to physically visit multiple properties • Low trust in online listings due to fraud and outdated information • Varying levels of digital literacy and smartphone/internet access	• Traditional real estate brokers – personalised but costly and slow • Newspaper / local classifieds – outdated, no photos or details • Generic property portals – cluttered with fake or duplicate listings • Word-of-mouth and social media groups – unreliable and time-consuming	

	Real estate agents and brokers seeking marketing and client outreach tools	Location constraints – need to be near workplace, school, or family	Walk-in visits to “To-Let” properties – inefficient and random	
Focus on J&P, tap into BE, understand RC	2. JOBS-TO-BE-DONE / PROBLEMS [J&P] - Find a verified rental property within budget and preferred location quickly - List a property for rent/sale and reach genuine, interested tenants or buyers - Compare properties on price, amenities, and location without visiting each one - Get accurate, real-time market insights to negotiate a fair price - Complete rental agreements and paperwork without excessive back-and-forth	9. PROBLEM ROOT CAUSE [RC] - Real estate market is highly fragmented with no single trusted, verified source of listings - Brokers act as gatekeepers of information, charging high commissions for limited transparency - Listings are rarely updated in real time, leading to duplicate or stale information - Paperwork, negotiations, and payments are still largely manual and offline - No standard way to verify property ownership, photos, or pricing claims	7. BEHAVIOUR [BE] - Spend hours scrolling through multiple apps, websites, and social media groups - Call or message several agents/owners to verify the same listing details - Travel to multiple locations for physical site visits before deciding - Rely on friends, colleagues, or local contacts for trustworthy recommendations - Negotiate rent, deposit, and terms separately with each landlord/agent	Focus on J&P, tap into BE, understand RC
Identify strong TR & EM	3. TRIGGERS [TR] - Job relocation, transfer, or admission to a new college/city - Current lease ending or an eviction/vacate notice - Family expansion or lifestyle change requiring a bigger/different home - Seeing friends or colleagues find homes quickly and easily through an app 4. EMOTIONS: BEFORE / AFTER [EM] - Before: Overwhelmed, anxious, and frustrated by scattered, untrustworthy listings and slow brokers - After (using HouseHunt): Confident, in control, and reassured by verified listings, transparent pricing, and a smooth end-to-end process	10. YOUR SOLUTION [SL] - HouseHunt – an all-in-one house rental and real estate platform connecting renters, landlords, buyers, sellers, and agents on a single, trusted marketplace - Verified, detailed listings with photos, pricing, and amenities, kept up to date in real time - Advanced search and filters by location, price, property type, and amenities, plus virtual tours - Real-time market insights and comprehensive property data to support informed decisions - In-app communication, negotiation support, and digital paperwork to speed up transactions - Marketing and outreach tools for agents, with 24/7 accessibility across web and mobile	8. CHANNELS of BEHAVIOUR [CH] 8.1 ONLINE [online] - HouseHunt mobile app and website search and filters - Push notifications and email alerts for new/matching listings - In-app chat, calls, and virtual tour scheduling - Social media and digital marketing campaigns 8.2 OFFLINE [offline] - Partnerships with local real estate agents and brokers - On-ground property verification visits by HouseHunt teams - Community referrals and print/digital signage at listed properties	Extract online & offline CH of BE
